Attached is the latest Bravo Ground Transient Filter Protector.

Bravo are particularly excited about the VAC Protectors (items # 4 & 5 below) which will be the only available AC protectors with patented and patent pending technology to surge protect and filter all the AC Lines of Phase, Neutral and Ground.

As you know there are many AC protectors in the market (such as power strips and conditioners) but only these Bravo VAC Protectors protect and filter the Ground line as well.

This suite of 5 new products in the category of Ground Transient Protectors should solve many AC power problems in difficult areas.

**1. Model GTFB -----GTFBSPEC.PDF
(available & shipping)**

This is a 6 Amp Secondary Ground Line Transient Filter Block hardwire module.

Has UL/CSA 1283 Ground Filter Approval.

**2. Model GTFB20 -----GTFB20.PDF
(available & shipping on limited basis due to enclosure tooling issue).**

This is a 20 Amp Primary Ground, heavy duty, Ground Line Transient Filter Block hard wire module

Has ETL/CSA approval.

**3. Model GTFC -----GTFCSPEC.PDF. Also reference the GTFC.PDF.
(production availability expected in about 3 to 6 months).**

This is a 10 Amp rated Ground Transient Filter Line Cord with GTFB ground line filtering plus common mode filtering on Hot and Neutral Lines.

ETL/CSA/UL approval is pending.

**4. Model UVAC1-----UVAC1.PDF.
(AC FILTERING PLUS SURGE PROTECTION).
(expecting availability in limited quantities August, 2005 timeframe).**

This is a 20 Amp Universal In-line hardwire VAC Protector that protects all three power lines of Hot, Neutral and ground with both filtering and surge protection with LED indicators and replaceable fusing up to 60,000 amps.

ETL/CSA approval is pending.

**5. Model UVAC2 -----UVAC2.PDF.
(AC FILTERING PLUS SURGE PROTECTION).
(expecting availability Fall, 2005).**

This is a 10 Amp Universal In-Line Powercord VAC Protector version of UVAC1 with both Filtering on the power lines plus surge protection.

ETL/CSA approval is pending.
