Development and Exploration — CONTEC Continues Challenging from the Viewpoint of Customers

CONTEC is a global corporation, operating primarily in the fields of electronics and information-related technologies. Always acting from the customer's viewpoint, we take up new challenges in a wide range of Automation operations utilizing personal computers. We provide an extensive lineup of value-added devices and components, as well as customer-oriented solutions and services featuring microcomputers, personal computers, communication and multimedia.

- We are the pioneers who brought the personal computer's ease of operation to the field of automation technology
- Quick to embrace international quality standards, we obtained ISO9001 certification in 1995. We strive to meet our customer's trust and bring them satisfaction through quality management.
- We offer continuous support — before, during and after installation — from the provision of technological and application information to maintenance support and seminars.

Device & Component Business

We provide a wide variety of products related to Industrial PC, Interface board, Network and System machine necessary for Automation applications.

IPC series

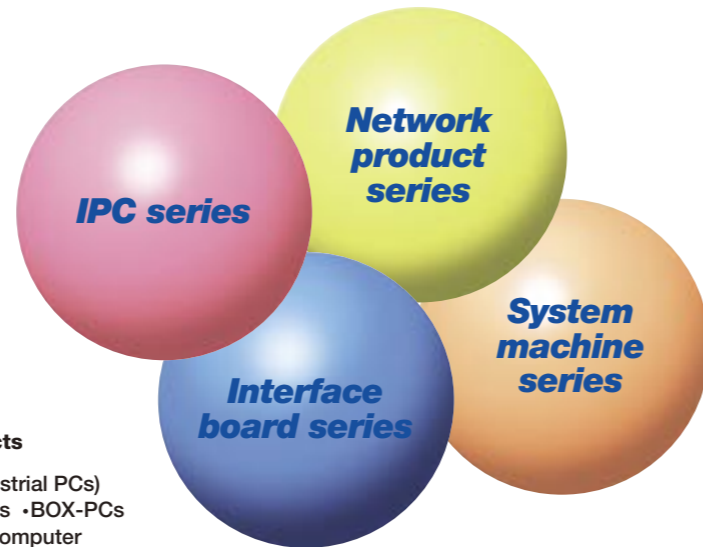

■ We provide Industrial PCs, "Built-in" PCs and a variety of SBCs that serve as the core for such computers as well as related peripheral equipment. These are designed to meet a wide range of Automation needs.

We guarantee the long-term supply of these products and produce them using environmentally conscious manufacturing methods, with an emphasis on quality assurance.

IPC products

- IPCs (Industrial PCs)
 - Panel-PCs
 - BOX-PCs
 - Factory computer
- Peripheral Equipments
 - Displays
 - Silicon disc drives
- Software
 - Windows Vista/XP/2000
 - Windows NT
 - Windows CE

Board PC products

- SBC (Single board computer)
 - PCI
 - ISA
 - PICMG
 - Compact PCI
- Peripheral Equipments
 - Chassis
 - Back plane

Setup PC products

■ We provide setup service for solution PCs and controllers, customized to the customer's request. Our services also include software installation as well as the development and supply of related equipment.

Interface board series

■ We offer a wide variety of products that enable the configuration of easy-to-use, low-cost Automation. These include PC interface boards, wire-saving and other peripheral equipment, as well as a variety of package software.

- Interface Boards/Cards
 - PCI Express/PCI/ISA boards
- Wire-saving/Remote I/O Equipments
 - Remote I/O boards, modules
- Software
 - Driver software
 - Support software

Network product series

■ Incorporating unique, user-friendly CONTEC design, our network products achieve excellent cost performance, both in terms of hardware and software.

- Wireless LAN products
 - Access point
 - Embedded wireless LAN modules
- General LAN products
 - Switching HUB
- Display graphics distribution system
- Related software

System machine series

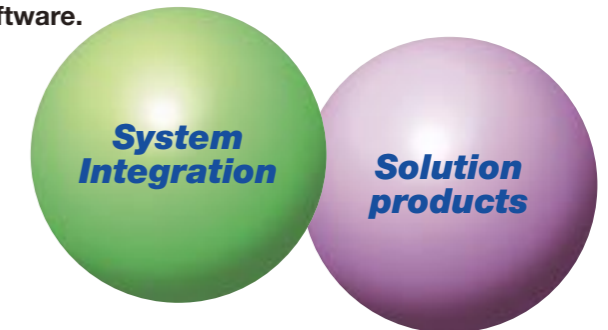

■ We provide service of development, production, setting and maintenance for the KIOSK terminal and control unit those use our industrial PC, SBC (single board computer), OS (Operating System), driver software, interface boards and wireless LAN.

- KIOSK terminal
 - Information terminal
 - Payment terminal
 - Security system
 - Amusement machine
- Control machine field
 - Production machine
 - Control unit
 - General purpose I/O control unit
 - Production management terminal
 - Control unit
- Measurement & monitoring field
 - Environment monitoring
 - Industrial measurement
 - Analyzer data logger
 - Electricity monitoring

Solution & Service Business

In an effort to meet ever-diversifying customer demand in our solution and service business, we take advantage of our strength in device and component products to provide optimized system integration incorporating both hardware and software.

■ With an array of device and component products available, we can provide easy-order system integration, featuring measurement control and Automation.

- Automatic paint system
- FA monitoring and control system
- Production instruction system
- Environment-related system

■ We provide various solutions to meet the remote monitoring needs of the emerging ubiquitous society. Our web-based remote monitor system is used in the internet and intranet environment.

- Monitoring system
 - Remote monitoring
 - Electricity monitoring
 - Solar power generator monitoring

EMS (Electric Manufacturing & Service) Business

We provide production service for controller of electronics machine and production machine which are used in industrial machine system.

■ At production base in Japan, Taiwan and China, we optimize purchasing and manufacturing globally.

- Variety of control box
- Electronics device for control
- Control unit for machinery
- Wire harness

Company Overview

Name	CONTEC Co., Ltd.	Officers	
Date established	April 1, 1975	Chairman and Director	Ryo Yoshinaga
Capital	1,119.6 million yen	President and Representative Director	Eijiro Urushizaki
Net sales	10,000 million yen (FY ended March 2008)	Senior Managing Director	Shiro Hayano
Employees	250	Managing Director	Yasushi Wada
Stock listing	The Second Section of the Tokyo Stock Exchange	Managing Director	Takao Kanemaru
Head office	3-9-31 Himesato, Nishiyodogawa-ku, Osaka 555-0025, Japan Tel: 81-6-6472-7130 Fax: 81-6-6475-1728	Director	Chikashi Nakai
Lines of business	Device and component business Solution and service business	Director	Takashi Seki
Website	http://www.contec.co.jp/	Director	Shukichi Muramatsu
		Auditor	Mitsugi Fujii
		Auditor	Yoshinobu Sato
		Auditor	Yukio Ozaki
		Auditor	Taiji Ishizaki
		Auditor	Shiro Takashima

Sales, Development and Production Network

Sales

Japan	CONTEC Co., Ltd. (2 sales branches and 10 sales offices)
U.S.A.	CONTEC Microelectronics U.S.A. Inc.

Corporate History

1975 Apr.	Founded as CONTEC Co., Ltd.
1979 Apr.	CONTEC Co., Ltd. launches Tokyo Business Office
1981 July	Begins technology exchange with China
1982 May	Opens CONTEC Microcomputer Center, a NEC microcomputer shop
1984 Apr.	Opens FA Microcomputer Center in Tokyo
1986 June	Establishes CONTEC Microelectronics U.S.A. Inc. in Silicon Valley, California; U.S.A.
1987 Oct.	Establishes Japanese-Chinese joint venture BEIJING CONTEC Microelectronics Corporation in Beijing, China
1988 Sept.	Establishes a technical support center and strengthens user support services
1989 June	Utajima Head Office building completed; company moves into its new offices
1990 Sept.	Establishes Japanese-Chinese joint venture SHANGHAI CONTEC Microelectronics Corporation in Shanghai, China
1991 Apr.	Merges with PALTEC Co., Ltd.
1992 Apr.	Launches Chubu Branch Office in Nagoya
1995 Apr.	Obtains ISO9001 certification
Sept.	Establishes Japanese-Chinese joint venture SHANGHAI CONTEC Digital Equipment Co., Ltd. in Shanghai, China
1999 Jan.	Establishes Japanese-Chinese joint venture International CONTEC Technology Co., Ltd. in Beijing, China
2000 Feb.	Relocates Tobu Branch Office to Koto-ku, Tokyo
Mar.	Changes investment ratio of SHANGHAI CONTEC Digital Equipment Co., Ltd. to 100%
2002 July	Obtains ISO14001 certification
2003 Apr.	Changes investment ratio of BEIJING CONTEC Microelectronics Corporation to 100%
Oct.	Changes investment ratio of International CONTEC Technology Co., Ltd. to 100%
2004 Mar.	Changes investment ratio of SHANGHAI CONTEC Microelectronics Corporation to 100 %
Oct.	Establishes wholly-owned production subsidiary CONTEC EMS Co., Ltd.
2005 May	Obtains "Privacy Mark" certification
July	Integrates BEIJING CONTEC Microelectronics Corporation and International CONTEC Technology Co., Ltd. to form a new company: BEIJING CONTEC Microelectronics Corporation
Oct.	Establishes capital and business alliance with ARBOR Technology Corp. and IPOX Technology Co., Ltd. in Taiwan
2006 Jan.	Establishes wholly-owned affiliate company TAIWAN CONTEC Co., Ltd. in Taipei, Taiwan
Sept.	Integrates SHANGHAI CONTEC Microelectronics Corporation and SHANGHAI Digital Equipment Co., Ltd. to form a new company: SHANGHAI CONTEC Microelectronics Corporation
2007 Mar.	Listed on the Second Section of the Tokyo Stock Exchange
